

CSC 642/842 Human Computer Interaction

Individual Project Assignment # 03 (50 Marks)

Prototyping

In this assignment, you are responsible for creating the prototype using a prototype tool. You are free to use any prototyping tool.

You need to submit this assignment in two forms:

1 – Report (30 marks): A report containing all the screen-shots of your prototype with a short description of each screen shot. Please also write down the prototyping tool that you are using.

2 – Working Prototype (20 marks): The second thing would be the prototype itself. If you will use an online prototyping tool, then you need to provide the sharing link or the username and password to access the resulting prototype.

Submission Notes

You will save all files in one folder, named as “YOURNAME_YOURID_AssignmentNo”. An example of such a folder for this assignment is “NameABC_12345678_4”. Then you will zip the file using any zip tool and submit it in the zipped form.

Submission Deadline:

The submission deadline is **Monday, March 09 at 23:59**.

Few Prototyping Tools:

- **Axure** (<http://www.axure.com/>)
- **Fluid UI** (<https://fluidui.com/>)
- **Mockflow** (<http://www.mockflow.com/>)
- **Justinmind Prototyper** (<https://www.justinmind.com/free-wireframing-tool>)
- **Foundations** (<http://foundation.zurb.com/index.html>)
- **InVision** (<https://www.invisionapp.com/>)
- **Marvel** (<https://marvelapp.com>)
